The Presentation

We visit your camp with our unique props and crafts, so the students/campers can see for themselves and physically experience the crafts of days gone by as mentioned in the חנוכה, משנה, חנוכה etc.

Every individual student will take home their hand crafted project as a souvenir.

The Educational Aspect

These projects are not mere entertaining experience of arts & crafts, rather they are a memorable timelong educational piece of art to carry out the furtherance of student's torah education גם כי יזקין לא יסור מחנה education

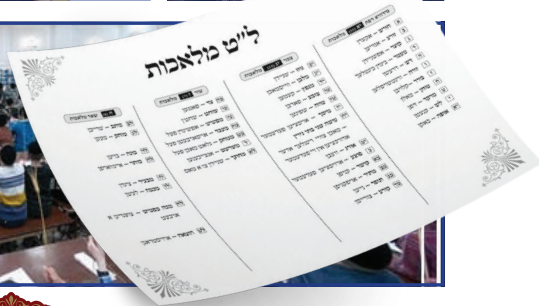

Our Expertise

As for the past fifteen years plus we have proven our success in virtual and kinosthetic educational programs that left an everlasting imprint on the participants at large.

Strongly Recomendaded for Camps, Day Camps, Shabbatons Etc.

The students will have everlasting memories, and forever be thankful.

מלאכת מהשבת
אִינֵה דוֹסָה שְׂמוּעָה לְרֵאִיָּה

Rabbi Leitner visited our camp for five amazing hours...
Weeks later the bachurim were still speaking about it [the program], and often while studying - they understood concepts that they learned in the seforim based on their experience with the program!

This program is extremely interesting and informative.
Rabbi Leitner spent four hours in our Yeshivah while overseeing over 100 boys and keeping them entertained...
It's not merely an arts & crafts, it is deeply informative, and a great tool for understanding our precious torah!

Rabbi Chaim Yeshaya Leitner conducted his hands-on program in our Day Camp. All the children were mesmerized with every part of the program. We lost track of time due to the excitement our campers experienced. Overall, the children received a tremendous amount of knowledge while enjoying every moment of the presentation.

I strongly recommend Rabbi Leitner's program for all Yeshivas, Girl schools, camps etc.
